## WHAT IS A DISCOVERY KIT?

Discovery kits are non-traditional library items, such as ukuleles or telescopes, which enhance the learning experience and provide a spark for further discovery.

Each kit comes with a folder with instructions, books or recommended reading lists.

Discovery kits are provided by a grant from Utah State Library.

Kits check out for one week, and overdue fines are \$1 per day.

User accepts full responsibility for missing or broken parts. Adult supervision is suggested.

Kits can be placed on hold through our catalog.

Ask a librarian if you have any questions!
